## CUTTING THE PRICE.

Cleveland Trying to Get Some of Stark County's Workhouse Trade.

Edward B. Westhaver, Winfield S. Klein and John S. Burris, the county commissioners of Tuscarawas county are in the city today looking over the workhouse. A move is on foot in Tuscarawas, Genesee and Coshocton counties to form a combine and build a workhouse of their own, and the gentlemen here today are endeavoring to ascertain whether the plan would be practicable and wise.

One of the gentlemen in speaking to a News reporter said that they intended to make some change in the matter of caring for their criminals, but did not know yet what it would be. He stated that they were now sending their men here and paying forty cents a day, but that this was too much.

Before the Stark county workhouse was built they paid Cleveland fifty cents a day, and now Cleveland is trying to get the trade again by underbidding Stark county. The Clevelanders say they will take their men cheaper, and one of the commissioners said he thought they could get in there for twenty-five cents a day. If they can do this, he said they would not build a new workhouse, but would take their prisoners away from here unless Stark county would lower the rate.

**AULTMAN REORGANIZATION.**  
A New Company to Operate the Plant—The Incorporators—Mr. Lynch Talks.

The Aultman Company was organized Saturday afternoon with a capital stock of \$250,000. The incorporators are W. W. Clark, president of the City National Bank, Canton; John Sherick, president of the First National Bank, Canton; William A. Lynch, Canton; Charles, Steese, president of the First National Bank, Massillon, and George E. Clifford, president of the Westcott National Bank of Fitchburg, Mass.

The names of incorporation were completed on Saturday afternoon and at once forwarded to Columbus. As soon as the charter is received the organization will be completed by the election of directors and officers, and plans will be completed for commencing operations. The property purchased by the creditors' committee will be turned over to the new company, who will conduct the business.

**Wm. A. Lynch Interviewed.**  
A News reporter saw Wm. A. Lynch Monday morning in regard to the new company. He stated that the reorganization had been almost unanimous, less than five per cent in amount of the creditors still remain out. In answer to a question as to how long a time would be allowed for the creditors to come in, he stated that the creditors committee would go forward at once and close up matters. At least he had been so informed by the committee. He thought the works would go into operation early in March, on a limited scale, and then the force be increased as fast as possible. Mr. Lynch expressed his gratification that the creditors had favored the reorganization so generally, as it would furnish work for a number of Canton workmen, but just how many he could not say at present. The works will continue in the same line of business as formerly and some other lines will also be added. Just what the new lines will be cannot be fully determined until after the organization is completed and the directors get affairs into working order.

**ON EQUAL TERMS.**  
Secretary Taylor Says the Women Can Do Anything the Men Can in School Matters.

Owing to a lack of official information as to how to proceed to obtain proper recognition in their efforts to make themselves felt in the coming school election, the women of Canton have been laboring under considerable difficulty. Secretary of State Taylor, who is also state supervisor of elections, has now interpreted the law and issued concise directions for the women in order that they may secure a voice in the school elections upon equal terms with men.

The secretary of state says: Every woman born or naturalized in the United States, of the age of twenty-one years and upward, who shall have been a resident of the state one year, of the county thirty days, and of the town, township or other election district twenty days preceding the election for the purpose of choosing any school director, member of the board of education or school council, under the general or special laws of the state, is entitled to vote and be voted for at such election for any such officer or voters. Women residing in cities having registration will be required to register before being permitted to vote. The days for registration this year will be March 22 and 23, from 8 o'clock a. m. to 9 o'clock p. m., and from 4 o'clock a. m. to 1 o'clock p. m., of each day.

**AS TO NOMINATIONS.**  
A woman, who is opposed to the principles of any of the existing political parties which polled 1 per cent of the entire vote cast in the state at the last preceding November election, may participate with the other electors of any such party in nominating candidates for school officers, in the same manner and to the same extent that the great body of the male members of such party are permitted to make such nominations. That is, she may participate with the men in making nominations for school officers by caucus, convention, meeting of electors, primary election, or by petition. When nominations are made by the central or executive committee of such party the women can take no part, as these committees must necessarily be composed of men.

If, however, the women do not wish to identify themselves with any of the existing political parties, but desire to make separate and distinct nominations, they must do so by petition, signed in the aggregate by one elector at least by at least twenty-five women, electors of the school district.

**AT THE POLLS.**  
In each voting precinct there will be a separate ballot-box provided for the reception of the ballots of all electors, whether men or women, voting for school officers, by whichever term the office may be designated in the precinct. Separate poll-books will also be kept for registering the names of all persons voting for such officers, and separate ballots containing the names of all the candidates nominated for such offices may be procured from the precinct officers.

Ballots of political parties entitled to the use of a design usually have a circle printed below the design, just above the name of the party. In such case, if the elector desires to vote for the candidate of such party, or for all the candidates, in case there are two or more to elect, she may do so by making a cross mark in the circle. If she does not desire to vote for all such candidates, however, she must mark the ballot as stated in the preceding paragraph; that is, by making a cross mark opposite, or to the left of each candidate for whom she desires to vote.

**AN INTELLECTUAL TREAT.**  
A large and appreciative audience gathered Monday night at Trinity Lutheran church to hear Dr. M. W. Hanna deliver his first lecture on "The Land of the Midnight Sun."

After a short sketch of the geography of the country Dr. Hanna took his auditors, beginning at Christiania, through the beautiful mountain scenery, pretty villages and by the lovely straits of Norway. He possesses a large collection of fine views and his lecture was profusely illustrated. The government routes, public baths, habits and customs of the peasantry were thoroughly described.

Most of the views were of the picturesque mountain and lake scenery. Immense glaciers moving slowly and surely down the steep declivities, beautiful waterfalls and fertile valleys are to be seen in Norway. Extreme good nature, kindness to strangers and neatness and thrift characterize the people. Though they are slow going, never in a hurry, they consider it a disgrace to be lazy or idle. The lecture was a description of the southern part of Norway, while the one tonight will be of the northern part, or the land of the midnight sun proper.
